## **Aircuity Founder and Chairman, Gordon Sharp, Named International Institute for Sustainable Laboratories' New Executive Vice President**

**NEWTON, Mass., USA – February 8, 2012**– [Aircuity](#), the smart airside efficiency company, today announced that Founder and Chairman, Gordon Sharp, has been named Executive Vice President of the International Institute for Sustainable Laboratories (I<sup>2</sup>SL). This appointment comes after helping direct I<sup>2</sup>SL towards its mission and goals for over five years as a board member.

As Executive Vice President, one of Gordon's largest tasks will be to promote I<sup>2</sup>SL's international role to advance sustainability in labs outside the United States. He will also be helping to develop relationships and foster country and region based lab sustainability organizations, along with assisting in the creation of unique knowledge based products that I<sup>2</sup>SL can promote both in the United States and abroad.

From speaking at both I<sup>2</sup>SL workshops and webinars, to being active internationally promoting I<sup>2</sup>SL to international lab audiences and to other lab organizations in Europe, Gordon has been an active board member focused on helping drive I<sup>2</sup>SL towards its goals. Additionally Gordon has been a speaker for many international programs involving or referencing I<sup>2</sup>SL in such countries as Germany, Spain, Egypt, the United Kingdom and Singapore.

"Gordon has been a very active board member and is instrumental in promoting I<sup>2</sup>SL internationally, freely offering his time and energy to build and support a number of key I<sup>2</sup>SL initiatives," said Phil Wirdzek, President and Executive Director of I<sup>2</sup>SL. "Recognizing his commitment and contributions, he was nominated and unanimously voted to be the next Executive Vice President of I<sup>2</sup>SL. I am pleased to have Gordon as an officer of this organization."

I<sup>2</sup>SL is an organization devoted to the principles of sustainable laboratories from the design to engineering to practice. Through worldwide partnerships and the exchange of technical information, I<sup>2</sup>SL helps produce high technology facilities that address the rapid pace of science, medicine, research and development in an ever changing and dynamic world. I<sup>2</sup>SL also serves as the official cosponsor of the Laboratories for the 21<sup>st</sup> Century Annual Conferences and Workshops (Labs21<sup>®</sup>).
